Postoffice Issues New Souvenir Victory Stamp

Postmasters have been notified that the department has just issued a new 3-cent postage stamp to commemorate the successful outcome of the war, and known as the "Victory Stamp". The new stamp is of a limited issue and will not be given out unless asked for by patrons.

The stamp is purple in color, 27/32 by 3/4 inch in size, the long dimension being horizontal. The design presents a standing figure of "Liberty Victorious", with a background composed of the flags of the five countries most actively engaged against the central powers. The figure of Liberty is helmeted, the upper part of the body being encased in chain armor, and a flowing skirt falls to the feet. The right hand grasps a sword, the point of which rests upon the ground, and the left arm is partly extended and holds a balance scale representing justice.

British Cabinet Approves Scheme To House Workers

LONDON, February 16.—(Associated Press Correspondence)—This country needs immediately at least 300,000 dwellings for its working classes, according to Dr. Christopher Addison, president of the Local Government Board, whose housing scheme has just been approved by the British War Cabinet. A bill outlining his ideas is to be presented soon to the House of Commons.

"The most acute question of the moment," said Dr. Addison, in explaining his proposals, "is the shortage of houses. The government wants local authorities to move at once and therefore a time limit will be put on government aid." State assistance, he continued will be given only within the next twelve months to schemes submitted to the Local Government Board and which must be carried out within the next two years.

Housing commissioners are being pointed to help the various authorities, each commissioner to have a staff including an architect and a surveyor.

Fittings are to be standardized, "but this does not mean," Dr. Addison's statement says, "that houses are to be built on one pattern. The government is anxious to avoid any such calamity. There will be plenty of scope for individuality, to suit local conditions and raw materials".

An entirely new proposal is put forward with regard to slums, the same financial system to be given for clearing and improving insanitary areas as for building new houses on new sites.

ANCHORAGE, Alaska, Jan. 11.—(By Mail)—(Associated Press)—After two years operations, starting with eight pairs of blue and two pairs of black foxes, Claude Green of Petersburg now has between 250 and 275 blue and 17 black foxes on his fox farm in the Tongass National Forest. The farm is on Sukoil island, which he leased from the government. A fish house holding 16,000 dry fish has been constructed on the farm.

GRINNELL, La., March 2.—(Associated Press)—Charles (Chuck) Hoyt, the fastest track man Grinnell college has produced in years, has been appointed assistant director of athletics at that institution. Hoyt holds the world's record of 21.2 seconds for the 220 yard dash, made at Drake university relays two years ago, and also has six state records to his credit. Three made in high school and three in college.
